

UNITE HERE HEALTH, your health fund, is taking care of you during these tough times!

The Board of Union and Employer Trustees is making sure you keep your health insurance coverage.

The Coronavirus is affecting those in our industry the most. It is causing reduction in hours, layoffs and closures, which impacts you and your family. But we're here to help!

How we're helping:

If you have been laid off or had your hours reduced, you will not lose your health insurance in the coming months.

If you have coverage in March, you will be covered at least through June 2020. More information specific to your plan coming soon.

We'll also cover any medically necessary COVID-19 testing or treatment* at 100%.

**For Kaiser plans, testing is covered at 100% and normal cost-sharing applies to treatment.*
